the result has been a clean sweep."

Indications Are That Clevelond Has a Small Plarality.

COLUMBUS, O., Nov. 19.-The result of the election in Ohlo is in doubt, and it will probably take the official count to decide. Seventy-six counties have been heard from by the Democratic State committee, and estimating the result in the other twelve coun-ties they claim Cleveland has carried the State by 1,270 plurality. They also claim that Taylor (Dem.), for Secretary of State, is elected by a large plurality. Reports have been received by the Re-publican committee from all the counties of the State, except Monroe, Licking, Wyandotte and Tuschrawas, and estimating the results in these countles they claim the election of Taylor by 1,413 plurality, and that Harrison carried the

THE SENATE AND HOUSE,

The Approximate V ting Strength of the Two Legislative Bodies.

NEW YORK, Nov. 10.-The details of the congressional situation were somewhat unnettled by the reports which reached this city after midnight, but the approximate voting strength of the several parties in the House of Representatives of the Fifty-third Congress has not been mateby the United Press on the night of the cition. The then expected gains of Republican congressmen in Obje have not been fully realized, and the result in Illinois gives the Democrats a greater num-ber than was estimated. But these have

been met by increased gains in Iowa and Massachusetta, in each of which States the Republicans will have five more members than in the present House

The totals from present indications are as follows: Democrats, 213; Republicans, 127; Farmers' Alliance and Silverites, 10. The doubtful districts are more likely to increase the Democratic vote than other-

wise.

In the Senate the Democrats gain sena-tors from New York, Wisconsin and Wyo-roing, giving them 42. Nevada will return Senator Stewart, who has separated from the Republican party, and who will repre sent, first or all, free coinage of silver-sent, first or all, free coinage of silver-sent all ance senator, and the managers of the party also claim senators from Ne-braska and Kansas. The balance of power seems to be firmly held in the grasp of the Third party.

WHAT THE VICTORY MEANS.

The Chicago Herald Makes an Important Suggestion to Mr Cleve and.

CHICAGO, Nov. 10.-The Chicago Herald to-morrow will say:

There is no serious question in any quarter as to what Tuesday's popular verdict means. It means that McKluleyism is most emphatically condemned Mr. Poster, Harrison's Secretary of State, exprestes the truth when he says: "The party challenged the judgment of the country on the McKinley bill and the verdict must be accepted as the will of the people that a different policy shall be

General Palmer, Mr. Springer and other leading Democrats express themselves to the same effect. It is "the will of the people that a different policy shall be adopted with respect to the tariff," and all Democrats who have been chosen to represent the people in Congress and in the White House must respect that will without hesitation, without timidity and without delay.

When the people have expressed their will with tremendous emphasis, as they have in this instance, there is no reason why they should have to walt thirteen months for their newly-chosen representatives to assemble and four or five months longer for them to formulate and

nact laws giving effect to the new policy. It is the opinion of the Herald that Mr. Cleveland should convene the Fifty-third ongress as soon as possible after the 4th of March next. In view of the overwhelming expression of public opinion last Tuesday he can hardly do less. Congress need not sit all summer or enter upon the work of general tariff revision. It can repeal the McKinley act except as to sugar, which may well be reserved as a source of revenue in future in cas of necessity, put well and other reof necessity, put wool and other raw materials on the free list, reduce the rates on finished products to match in the manner indicated by the several house bills of last session, instruct the Ways and Means Committee to prosecute the work of general revision during the recess and then adjourn. This will be a good beginning, considering that the World's Fair is to be held next summer. It will serve as a suitable notification to foreign exhibitors and others, who will be here in great numbers, that we have adopted a more liberal policy, and that we have invited them to come here for some more substantial purpose than to

TOPEKA., KAN., Nov. 10.-At noon to-day but little additional light had been thrown on the situation in Kansus. They elected the congressmen from the First, Second and Fourth districts, and the Populists elected their candidate from the Third, Fifth, Sixth and Seventh districts. The Republi-cans elect Hilbern in the Fourth, Loudd in the Fifth and Powers in the Sevenih. The Legislature returns still indicate a small majority for the Democrats on joint ballot.

WAR IN SOUTH AMERICA

BETWEEN CHILI, PERU AND ARGENTINE IMMINENT.

All Three Countries Actively Preparing for the Conflict-Peru Well Armed With Rifles and Vessels.

PANAMA, Nov. 10 .- Advices received here from Chill say that war is imminent between Peru and the Argentine Republie on the one side, and Chili on the other. A dispatch from Valparaiso says: Peru is well armed, and her forces have recently received 100,000 Manichler rifles,

with other formidable machines of war. A Chilian gentleman just from Peru states that the approaching war affords the staple theme of conversation, and a pretense of friendship is only to gain

THE GOVERNOR TAKES CHARGE. New Orleans in the Hands of the "tate Authorities-Conflict Imminent.

NEW ORLEANS, Nov. 10 .- The Governor has taken control of the strike situation in the city of New Orleans. The city authorities practically admitted their inability to maintain the peace, and the Governor at 1 o'clock to-day issued a proclamation, in which he says he has been aware of the scenes of violence provailing in the city, and which have been aggravated by the shutting down of the gas and electric light works. This, he says, has given criminals an incentive to

ply their vocations in darkness.

The Governor calls on the citizens not to congregate on the streets or to commit breaches of the peace, and urges them to discount tance all undue excitement. He declares that the reople must and shall be protected in the rights guaran-teed them under the constitution, and says that all the power vested in him shall be extended to preserve the peace and good order of the city.

The street car company presidents will meet and provide men to run the cars. An effort will be made on one line, which will no doubt have the effect of precipi-

tating a conflict. The Amalgamated Council wrote auother note to the merchants this morning, but it contained no concessions, and

it is improbable that any attention will be paid to it. The mayor issued a proclamation this morning, calling upon all good citizens to present themeseives at the city hall to be sworn in as special policemen. Only eighteen men answered the suntmons. The police force has been on duty eighteen hours a day for two weeks, and

s completely demoralized. CRUSHED BY FALLING TIMBERS Probably Forty Persons Killed by the Col-

lapse of a Mill. VIENNA. Nov. 10 -- A nell collapsed fo Oprau, Moravia, yesterday, shortly before the hands were to leave for the night. Almost two hundred men were in the building at the time. When the walls began to crack the men in the basement and on the ground floor ran out. The men and girls above started down stairs. In the panic the stairway collapsed, and before any-body could struggle out of the ruins the whole building came down.

About lifty persons were caught in the bricks and broken timbers. Several were researd, but it is supposed that thirty or forty were killed. The dead bodies of twenty have been removed, and the debris un-doubtedly will reveal many more. Fifty men are at work clearing away the ruins. The mill was filmsily built, and the operation of heavy machinery on the second floor is believed to have caused the col-lapse. The police are looking for the build-er and will arrest him.

Insubordinate Soldiers Rint.

PANAMA, Nov. 19.—News from the South is to the effect that recently a party of fifty insubordinate soldlers of the Second Artillery appeared in the Praia Formosa and Sacco de Alfera dis-trict of Rio Janeiro, and began an indiscriminate attack on the people, both in the streets and in their houses. The men were in uniform, and were armed with swords, bayonets, knives, pistols, etc. They not only attacked the police and people encountered in the streets, but they also attacked passing teamsters, but they also attacked passing teamsters, cutting and beating the passengers and robbing them of their money and valuables. There were four policemen in the district, one of whom was killed and the others wounded. A large number of civilians were also wounded. As soon as ilians were also wounded. As soon as the news of the disorder reached the central police station a force of police was sent to the place, but the disorderly soldiers had already disappeared. The cause of the raid is not known.

South Carol na Congresomen. CHARLESTON, Nov. 10.-The congressional count will not be made up officially until next week. But all the preclact, have been heard from. In only one district, the Seventh, is the vote close. In that district Molse, the straight Democratic candidate, is elected by about 600 majority. The returns thus far, unofficially, give Molse 366 majority. The South Carolina delegation najority. The South Carolina desegation to Congress will, therefore, be as follows: First district, W. H. Brawley, Democrat, re-elected; Second, W. U. Talbert, Alliance; Third, G. W. Sheil, Democrat, re-elected; Fourth, A. C. Latimer, Alliance; Fifth, T. J. Straight, Alliance; Sixth, J. L. THE CINCINNATI LAUNCHED.

The New United States Warship Given to

the Sea at Brooklyn. BROOKLYN, N. Y., Nov. 10 .- At 2:17 P. M. to-day, in a steady downpour of rain, the Cincinnati was launched at the Brooklyn navy-yard. Three thousand people stood for two hours waiting for the new crusier to slide off the ways. Secretary Tracy and Assistant Secretary Sorietary Tracy and Assistant Secretary Sola, of the navy, were present. Miss Stella Mosby, daughter of the mayor of Cincinnati, broke a bottle of Ohlo wine over her bows and christened the new vessel the Cincinnati. Mayor Mosby and a delegation from the Chamber of Comof Cincinnati were present. Philadelphia, Miantonomon, Atlanta and Dolphin welcomed their new consort with

salute as she grasefully took the water. The Chichnati took the water with a graceful dip and rode majestically out toward midstream. She kept an even keel, and her graceful lines and trim shape drew favorable comments from the experts who were present and cheers from the crowd. Half a dozen tugs sur-rounded her and towed her to the navyyard dock, where the work on her will be completed. CORN AND COTTON CROP.

DEPARTMENT OF AGRICULTURE RETURNS FOR NOVEMBER,

Average Tield of Corn for the Seven Surplus

States.The Lint Crop.Short Tield of Potatoes. WASHINGTON, D. C., Nov. 10 .- The

crop returns of November to the Department of Agriculture, with those October, indicate the yield of the year of the principal food products, and point approximately to the perfected estimates at the close of the year. The yield of corn averages by November returns 22.4 bushels per acre, and promises an aggregate production of a little more than 1,600,000,000, while the other great bread grain-wheat-by

the other great bread grain—wheat—by the returns of last month, pointed to a product, based on acreage investigation nearly perfected, not exceeding 50,000,000 bushels, with a possibility of a shrinkage in threshing and a certainty of light weights.

In the Northern States of the Atlantic coast the crop ripened well. In the cotton States it was injured somewhat by excessive moisture, causing rot and mold, and in some districts it was shortened by drought. In Ohio the crop is well cured, but chaffy from drying too rapidly. The yield is very uneven, ranging from ten to fifty bushels per acre. The Indiana product is in good condition on early planted areas, and better than was expected on late planting, and in view of the long-continued drought. The local yields are extremely variable. There is much complaint of lightness of ears and looseness in the cob in Illinois, and the same variably in yield and in quality as elsewhere. It is well dried out and undamaged by drought. Some was injured by being cut and shocked too early. There is much chaffy corn, and the average weight will be light. Iowa corn has ripened well, heavy frosts being delayed till the last week of October, but late planted is shrivelled from the rapid drying of immature ears.

planted is shrivelled from the rapid dry-ing of immature ears.

The average yield for corn in the seven surplus States are as follows: Ohio, 29 bushels; Indiada, 23; Illinols, 25.8; Iowa, 28; Missouri, 28; Kansas, 23.3; Nebraska, 28.7. The average yield of bushels is 27.1 bushels per acre. In New York, 14.7; Pennsylvania, 14.5; Wisconsin, 12.5; Iowa, 10.17.

bushels per acre. In New York, 147; Pennsylvania, 145; Wisconsin, 145; Iowa, 19.17.

Part of the crop is sound and good and a portion very light. The low lying areas were damaged irretrievably by the excesive moisture of early summer. Wet weather in spring and drought in summer reduced quantity and quality in Missouri. The average in Kansas is reduced by the low yield of seed corn, which is, of course, included in the asyrogate. Lower bottom lands here yielded better than up lands, as the season was too dry for a large part of the latter. Scorching winds in June injured the erop materially. Nehraska corn, if early planted, ripened thoroughly. Some of the latest planting put in with the lister was plowed up and sown to wheat. Variability of yield makes it difficult to fix a fait average. In the lower places there is some injury from frosts.

The estimated yield of potatoes is 55 bushels per acre. It is 52 in Malne, 54 in New York, 69 in Fennsylvania, 62 in Michigan, 70 in Mienesota, 61 in Iowa and 67 in Kansas. The crop is almost everywhere light. The tubers are small as a rule, and rotting considerably in New York and the West. The yield of tobacco is less than last year, the average heing reported at 682 pounds per acre of all kinds against 748 last year.

The average yield of hay is 1.17 tons per acre, nearly the same as in 1891.

The vield of lint is generally short in proportion to weight of seed cotton, and the staple is short, though generally clean and of good color.

The November returns to the Department of Agriculture indicate a very fight crop, with short staple, gathered generally clean and of good color.
